17 May 2007

Dear

The Labour Party has chosen Gordon Brown to be its next leader. There is no issue more important, and no question on which the British people are more anxious to see a change of policy by the next prime minister, than the Iraq war.

To amplify this message, the Stop the War Coalition intends to deliver to Gordon Brown on his first day in office the following declaration:

We urge you on behalf of millions of British voters to:

- 1 Withdraw British troops from Iraq no later than October 2007.**
- 2 Declare that this country will not participate in any attack against Iran.**
- 3 Pursue a foreign policy independent of the administration of the United States of America.**

We are writing to you seeking your endorsement of this declaration, prior to its presentation to Gordon Brown.

Yours,

Tony Benn, President of Stop the War
Andrew Murray, National Chair of Stop the War
Lindsey German, National Convenor of Stop the War

I wish to support the above declaration to the next prime minister:
