

# Stop the War Alternative Conference

Sunday 24th September from 10.30 am - 6.00 pm

Roscoe Building, University of Manchester, Brunswick Street,  
Manchester

Labour Party conferences under the Blair regime are rigidly controlled and stage-managed. When 80 year old Walter Wolfgang heckled then foreign secretary Jack Straw last year with the single word "Nonsense", he was manhandled out of the conference hall by security guards. This year, Stop the War has organised an alternative conference, the day after the TIME TO GO demonstration at which there will be genuine discussion and debate.
